

Acute Care Hospitals KPI Outlier Worksheet

This tool was designed to warn an Operator when a possible data entry error has been made while submitting a worksheet to Benchmarking Express. It references Key Performance Indicators (KPI) considered outside of the Standard Ranges. For the categories listed:

- Low=Less than the standard for the industry
- High=Greater than the standard for the industry

Please note: AHF's software system will automatically notify you if an error seems to have been made during your data entry. In the system you will see a yellow circle/dot next any month under the "Submit Data" tab where the system feels data has been entered outside the acceptable high and low ranges.

Bed Size	Net Cost PPD	Net of Cast PPD	Total Cost PPD	Labor Hours PPD
1-50 Beds				
Low Outlier < High Outlier>	\$25.00 \$140.00	\$36.00 \$166.00	\$36.00 \$260.00	1.20 10.00
51-150 Beds				
Low Outlier < High Outlier>	\$3.00 \$100.00	\$15.00 \$110.00	\$19.00 \$160.00	0.60 60.00
151-300 Beds				
Low Outlier < High Outlier>	\$2.00 \$60.00	\$16.00 \$78.00	\$19.00 \$129.00	0.70 3.80
301-450 Beds				
Low Outlier < High Outlier>	\$5.00 \$60.00	\$12.00 \$80.00	\$37.00 \$120.00	0.80 3.60
450+ Beds				
Low Outlier < High Outlier>	\$4.00 \$50.00	\$12.00 \$67.00	\$28.00 \$108.00	0.70 3.10
